24 KILLED, 27 INJURED

Fatal Collision on the Boston and Maine Railroad.

ONE WAS EXCURSION TRAIN

Wreck Was Due to a Confusion of Orders and the Fact that the Morning Was So Foggy that Engineers Could Not See Headlights.

White River Junction, Vt., Sept. 17.—A fearful head-on collision between a southbound Quebec express and a northbound freight train on the Concord division of the Boston and Maine railroad occurred four miles north of Canaan station early Sunday, due to a mistake in train dispatcher's orders, and from a demolished passenger coach there were taken twenty-four dead and dying and twenty-seven other passengers, most of them seriously wounded. Nearly all of those who were in the death car were returning from a fair at Sherbrook, Quebec, 160 miles north. The conductor of the freight was given to understand that he had plenty of time to reach a siding by the night operator at Canaan station, receiving, according to the superintendent of the division, a copy of the telegram order from the train dispatcher at Concord, which confused the train numbers 30 and 34.

The wreck occurred just after the express had rounded into a straight stretch of track, but owing to the early morning fog neither engineer saw the other's headlight until it was too late.

It was a very foggy morning and the enginemen were not much more than 200 feet apart when they came in sight of each other. Both trains were running fast, the freight on a down grade of about 50 feet to the mile. The engine of the passenger train telescoped the baggage car and coach, which was occupied largely by French Canadians on their way to the mills at Manchester, Nashua, Lowell, and Fall River. Occupants of the smoking car were not seriously injured, and those in the Pullman car suffered only from the shock.

Wrecking trains with full crews were started promptly from Concord and White River Junction, together with an ambulance of doctors, nurses and medicines, etc., from Concord, and the track was cleared at 3 o'clock Sunday afternoon.

Canaan, Sept. 17.—An investigation of the terrible accident of Sunday by which more than a score of people lost their lives and a greater number received injuries by a collision of a freight and an express train on the Concord division of the Boston & Maine railroad near Canaan, will be begun probably under the direction of M. D. Cobleigh, of Lemanon, the county seat Monday.

According to a statement issued by the railroad officials, a blunder in handling train orders was the cause, but the identity of the employee responsible for the error remains to be determined.

Station agent Greely of Canaan station, through whose hands passed the fatal orders for the freight train to proceed on the passenger train's time, was temporarily removed. Mr. Greely was regarded highly here as a capable agent and operator.

Hanover, N. H., Sept. 17.—Twelve of the twenty-seven persons who were taken to the hospital suffering from injuries received in the railroad accident at West Canaan, which caused the death of twenty five persons, had recovered sufficiently to leave that institution Monday and but fifteen persons still remain at the hospital.

None of the injured persons still at the hospital was in a dangerous condition, the injuries in the main consisting of slight concussion, and bruises and sprains.

The body of an unidentified boy about 8 years of age, who died during the night, remains at the hospital.

Rival of the Lusitania.

London, Sept. 17.—The Cunard line steamship Mauretania has left her builder's yard at Walker for her first speed trials off the Tyne. Afterward she will return for her final fittings and coal bunkers. She is 790 feet long, compared with the Lusitania's 787. Her tonnage is 33,200.

DOCTORS TRIUMPHANT.

Virulent Case of Tetanus or Lockjaw Successfully Treated.

New York, Sept. 17.—A case of virulent tetanus or lockjaw has been cured by the doctors of the Williamsburg (Brooklyn) hospital.

The record it is said, only two or three similar cases on record.

Six weeks ago Mrs. Anna Koesting of Williamsburg, was stricken with lockjaw as a result of a rusty nail. Her agony was so intense that she was removed to the hospital. A council of physicians agreed that her case was hopeless.

Nevertheless, Dr. Henderson, of the house staff, injected anti-toxin and has done so every day since. Weeks passed without apparent results. The treatment seem to show signs of success about a week ago. On Friday Mrs. Koesting was allowed to leave her bed, and she will soon leave the hospital.

Eight Years for Perjury.

Summerville, Ga., Sept. 17.—One of the most remarkable cases tried in Chattooga superior court at this term was the case of the state versus John Parham, convicted of perjury and sentenced to the penitentiary for a term of eight years by Judge Wright. The litigation began by a suit of damages against the Central railroad of Georgia. The road proved that there was no accident as alleged by the plaintiff, and therefore could be no damage done to him; hence the jury found a verdict in favor of the defendant. This was at the September term of the court for last year. Judge Branham then took up the matter and personally prosecuted the man Parham for perjury without the aid or consent of the Central railroad.

Witch of Finance Stricken Blind.

Columbia, S. C., Sept. 17—Mrs. Cassie M. Chadwick, noted witch of finance, who, posing as Andrew Carnegie's natural daughter, swindled Ohio and eastern bankers and capitalists out of millions in loans on bogus securities, was stricken with a nervous collapse at the penitentiary Monday, which has left her blind. Her condition is serious, and it is the opinion of the prison physicians that she will never live to serve out her ten year sentence, two years of which she has now completed.

Every Cop a Wireless Station.

Chicago, Sept. 16.—A special to the Tribune from San Francisco says that to make every policeman in the city a wireless telegraph station that can be called from Central at any moment is the hope of Assistant City Electrician Parmenter. He would have each patrolman carry a small, compact apparatus in his pocket with the receiving fixture on his helmet. Parmenter is working on the idea now.

Pitched Ball Kills Player.

Montreal, Quebec, Sept. 17.—Henri Pilon was struck over the heart by a pitched ball in a baseball gave on Sunday and died almost instantly. The ball passed through the hands of another player and struck Pilon. Pilon caught the ball, threw it to the shortstop and dropped dead.

Building Collapsed; Two Killed.

Cincinnati, ., Sept. 17.—One unknown man and one woman were killed and a dozen other persons narrowly escaped death in the collapse of the Dohan Shoe Company's four-story building on Central avenue, near the Sixth street market Saturday. The building was undergoing repairs.

Consecrated Bishop Coadjutor.

Columbia, S. C., Sept. 17.—Rev. W. A. Guerry was on Sunday consecrated bishop coadjutor of the South Carolina Episcopal diocese, the services taking place in Trinity church, in the presence of a distinguished gathering, representing all sections of the state

FAINTED AT VERDICT

Mrs. Ethel Blair Found Guilty of Killing Husband.

IS RECOMMENDED TO MERCY

When Mrs. Blair Heard the Verdict She Fainted—She Had Been Out on Bond Since the Tragedy Occurred Last January.

Columbia, S. C., Sept. 17.—Mrs. Ethel W. Blair, charged with the murder of her husband, M. V. Blair, a conductor on the Columbia, Newberry and Lawrence railroad, in January last, has been convicted of murder with a recommendation to mercy.

The crime for which Mrs. Blair has been convicted is punishable by from two to thirty years in the penitentiary. Mrs. Blair, who is about 30 years of age, and the mother of two children, is an unusually handsome woman and stood well in this community.

When Mrs. Blair was brought into the court room there were no visible signs of the ordeal that she has just passed through, but on hearing the verdict she fainted and had to be lifted from the court room floor.

Within an hour after the verdict Mrs. Blair had recovered sufficiently to be taken to the county jail. She had been out on bond since the killing.

Lack og Affnity.

On the 12th of last January McCulley W. Blair, conductor on the road between Columbia and Laurens, was shot to death at his home on Marion street. The fatal wound, it was charged, was inflicted by a beautiful woman—his own wife.

Columbia, whose conscience has been well nigh pricked to death by the sting of numerous sensational homicides, was thoroughly awakened by this great tragedy. At the inquisition made by the coroner there was startling evidence, and the wife of the deceased was placed in arrest. A term of court has intervened, but interest has been none the less flagging, and this tragedy is still fresh in the minds of the people of the state.

Captain Blair was 53 years of age—his wife 30. He was a victim of a terrible disease of the stomach which required constant medical treatment. There was apparently no affinity between the two. The homicide presented many points of interest, not alone from the criminal side, but from the psychological. Evidence submitted shows that Mrs. Blair appreciated the lack of affinity between herself and her husband. Three brothers married three sisters, and two of the others met death by violence.

Sensational Trial.

In the most sensational trial of the year only a day was required. The jury in the case assisted very materially by denying itself of several privileges.

The prosecution produced no evidence to prove the infidelity of the wife, although there were insinuations in the testimony. And on the other hand, the defense's witnesses contradicted nearly everything to which they had testified at the inquest.

Pope Issues Encyclical.

Rome, Sept. 17.—The Osservatore Romano, organ of the vatican, has issued an imporant encyclical of Pope Pius X, on "Modernism," which really is a completion of his recent syllabus. The document sets forth that modernism is a serious danger to the church, refers in detail of the various features of modernism, condemns it as dangerous in philosophy, faith, theology, history, criticism and reforms, and comes to the conclusion that modernism is a synthesis of all heresy and must logically lead to atheism.

Fire in Gov. Comer's Home.

Montgomery, Ala., Sept. 17.—Shortly after 9 o'clock the fire department was called by telephone to the governor's mansion on Church street, but the blaze was extinguished by Governor Comer and his son-in-law, J. Craig Smith, president of the state convict commission, before the firemen arrived. The walls of the front drawing room were slightly damaged by the flames, which originated from lace curtains being blown by the wind across a lighted gas jet.

TONS OF POWDER LET GO.

Fatal Explosion at Works of the Equitable Company, East Alton, Ill.

Alton, Ill., Sept. 17.—Fifteen thousand pounds of powder exploded Saturday at the Equitable Powder works at East Alton, 2 miles from this place, killing Charles McGinnis and shocking Charles McGilson so that his mind is temporarily gone.

The shock of the explosion was felt throughout Alton. Houses trembled, windows rattled and many people thought there was an earthquake. McGinnis and his helper, McGilson, were working in the glazing mill and McGinnis was letting powder run down from a drum into kegs.

McGilson was wheeling a truck a hundred yards away. Suddenly there was a flash and McGilson was blown into the air and carried more than 100 feet before he alighted. When he was picked up, McGilson was unconscious and later it was found that his mind was a blank.

Parts of McGinnis' body were found near the mill.

The cause of the explosion is a mystery.

Deaf and Dumb Girl Assaulted.

Montgomery, Ala., Sept. 17.—Dorse Williams, the negro accused of criminally assaulting Miss Johnson, the deaf mute and paralytic daughter of a farmer, near Greenboro, Thursday afternoon, has been captured near Demopolis, and is jail at Birmingham. Sheriff Gewin took his prisoner to Meridian, Miss., and started from there to Birmingham. He eluded two mobs, which surrounded the train, and finally left the train at Moundsville and went by country conveyance to Birmingham. Excitement runs high in the section where the crime was committed. The negro admits he is the man wanted, but says he did not commit the crime.

Woman Gives Yale $150,000.

New Haven, Conn., Sept. 17—Professor Russell M. Crittenden, director of the Sheffield Scientific school of Yale university, announces a gift of $150,000 from Mrs. James B. Oliver, of Pittsburg, Pa., This gift is for the erection of a new recitation or lecture hall as a memorial to her son, Daniel Leet Oliver, formerly a student in the Sheffield Scientific school, class of 1906, who died last June.

June. The building will be devoted mainly to the work in English, economics and history, subjects in which young Oliver was especially interested, and will be called the "Oliver Memorial hall."

Gospel Crusade for Chicago.

Chicago, Sept. 17.—Backed by the most representative laymen of the various Protestant denominations of the city, Chicago's forces of evil are to be attacked by a gospel army of business men and evangelists who will open their campaign Sunday, October 6th, in a double canvas tent, steam heated, and with a capacity of 5,000 people. The Rev. R. A. Torrey will act as leader. It is a movement intended to stir the 2,000,000 people of the city to religious heights and depths.

Heavy Bail for Negress.

New Orleans, Sept. 17.—Bail was fixed at $50,000 Saturday for Virginia Reed, the negro woman to whom the defaulting tax clerk, Charles H. Letten says he gave nearly all the $118,000 he stole. The woman is charged with receiving stolen property. A charge of perjury has also been made against her. Letten, who has confessed, will be used as the principal witness against her.

Thought Man a Squirrel.

Dover, Ga., Sept. 17.—While hunting in the Ocmulgee river swamp, near this place, little Eddie Murphy shot Mark Joiner, mistaking him for a squirrel in the thick bushes. Joiner is painfully, though not seriously injured.

DEBT HIS DOWNFALL

Hounded by Loan Sharks, Man Commits Crime.

SHOCKING PLOT REVEALED

Railroad Clerk Charged with Luring Diamond Broker to a Room and There Attempting to Kill and Rob Him.

Chicago, Sept. 17.—John W. Miller, a railroad clerk, who was arrested Saturday night on the charge of attempting to kill and rob Edgar M. Crumb, a diamond broker, confessed the crime to the police Sunday.

Desperation, caused by the hounding of a horde of loan sharks, was given by Miller as the reason for the crime.

In his written statement of the manner in which he lured Crum in the flat for the deliberate purpose of attacking and robbing him, Miller, who is a slim, delicate man, 36 years old, revealed one of the most shocking plots that the police have dealt with for years.

Miller beat the diamond broker over the head not only with a stove poker, which broke in three pieces by the force of the blows, but with a meat cutter.

Crumb is lying near death at a hospital as a result of the terrible beating he received.

Miller said that for a year loan sharks had threatened him and swallowed up his salary and cost him one good position. His wife, he said, was a good, saving, thrifty girl, but he drank and gambled and lived far beyond his salary. An original loan of $50 increased to notes of $400. The interest was ten percent a month and he had to borrow from one man to pay interest on the first debt to another man. Thus the little cloud grew blacker and blacker until it threatened to ruin his whole life and drive him from home.

With some it would have been suicide, but Miller began to plot to get money in some easier way than borrowing it. Finally, he answered an advertisement inserted in a newspaper by Crumb who desired to dispose of some diamonds. Crumb went to Miller's apartments to sell the gems and the attack followed.

AN ERROR OF JUSTICE.

Man Served 13 Years in Prison for a Crime He Did Not Commit.

San Francisco, Calif., Sept. 17.—After having served thirteen years in San Quentin penitentiary, it developed Sunday that William Evans, one of the convicts, is an innocent man.

Proof positive that he did not commit the crime for which he was sentenced is now in the hands of the proper authorities. The judge who passed the sentence declaring Evans is innocent, the man who prosecuted him made a deathbed statement that he was innocent, and in a short time Evans will be allowed to leave the penitentiary.

Evans was convicted in Amador county of burglary and sentenced to life imprisonment.

No Change in Ambassadorship.

Berlin, Sept. 17.—The German foreign office, taking cognizance of the renewal of the reports that the German ambassador at Washington, Baron Speck von Sternberg, is shortly to retire, has authorized the statement that Emperor William and Chancellor Von Buelow have the fullest confidence in the ambassador and desire him to remain at Washington so long as he desires to do so, and that no change in the ambassadorship has been considered.

America Buys Welch Coal.

London, Sept. 17.—The United States navy department has, according to a dispatch from Cardiff, Wales, to a news agency here, contracted with the Welsh firms for one hundred thousand tons of the best steam coal and the delivery to extend over 1908. The price agreed upon has been kept secret

DR. C. B. STROUSE IS EXONERATED

Judge Pritchard Gives His Would-Be Blackmailers A Black-Eye.

BUT AS THE SUN PREDICTED

The Great Evangelist Shows Up His Slanderers In a Bad Light. Testimony of the Doctor's Success the Whole Cause of the Litigation.

Considerable interest has been manifested on the part of the people of Gainesville in the legal fight in Asheville, N. C., on the part of certain persons to deprive Dr. Charles B. Strouse of the benefits he has established to derive from a contract to conduct a Chautauqua in this city for a number of years, his opponents even resorting to an effort to defame his character in order to carry their point, but the writer has never doubted the final verdict in Dr. Strouse's favor, and has not heard a citizen of Gainesville express doubt on this result.

There is therefore no surprise to the readers of The Sun or the people of Gainesville when Dr. J. F. McKinstry, received a telegram from C. W. Tuesday to the effect that Judge Pritchard, of the U. S. district court at Asheville, N. C., had rendered a decision in Dr. Strouse's favor, ruling out of his way to speak of Dr. Strouse in a most flattering manner.

As Dr. Strouse desired, he could have had the whole population of Gainesville appear in court at Asheville, for the asking.

FLORIDA DAY AT JAMESTOWN.

Governor and Staff Will Be There.

Thousands of citizens of Florida, the Governor and staff, will visit the Jamestown Exposition on the 24th, 25th and 26th of September to celebrate the Florida Day and the special days of other Florida cities. On the 24th the people of Tampa and Ocala will go to the exposition in Florida State day. The 25th is Jacksonville and Duval county day. The railroads have made exceedingly low rates for these days and large crowds are expected, as great interest in the celebrations is manifest.

Governor and staff, and many citizens will attend.

The exercises of Florida Day include an address of welcome by President Tyler and Governor Swanson, response by Governor Broward and other prominent citizens of Florida. The rest of the program will be rendered in the auditorium, beginning at 11 o'clock in the morning. At 5 o'clock in the afternoon there will be a review of military troops by Governor Broward, Gov. Swanson, President Tyler and others. From 8:30 to 10 there will be a reception and public meeting by the Florida Commission to Governor Broward.

Addresses, illuminations and other attractions will be features of the day.

There will probably be several companies of the Florida State Militia in attendance at this time, and they will participate in the exercises of the celebration.

Florida has no State building, but her resources are advertised to a considerable extent in the department of agriculture in the States Exhibit building and the Mines and Metallurgy building.

Many of the Florida visitors will go to Norfolk several days in advance of Florida Day, in order to be present at the celebration of Robert Fulton Memorial Day, September 22rd. when one of the grandest displays of fireworks of every kind will be made and a number of National flyers will deliver passengers.

Rates for the above occasion will be made September 22rd and 24th, by the Atlantic Coast Line, operating through Pullman cars from Jacksonville. Special rate of $14.65 round trip. Good in Pullman cars with final limit of ten days.

Be sure that your tickets read Atlantic Coast Line. For further information address Frank C. Boylston, District Passenger Agent, Jacksonville, Fla.

FELL TWO HUNDRED FEET.

Yet Man's Injuries Were Declared To Be Superficial.

New York, Sept. 17.—John Schmidt of Brooklyn, tumbled two hundred feet down the palisades at Weehawken, N. J., and has only bruises to show for his adventure.

Having failed to find friends, he attempted to climb down the palisades where the hill slopes off gradually. Losing his footing, he rolled down the hill and struck the highway, which at that point is about midway between the bottom and top of the cliff. His physicians at St. Marys hospital in Weehawken decided that his injuries were superficial.

If its a Reputation

You are after, White's Cream Vermifuge has a world wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by W. M. Johnson.

Fatal Accident at Rome.

Rome, Ga., Sept. 17.—Jim Layborn was killed here Saturday night by a trolley car. Layborn was crossing the street, and it is supposed he did not see the car. His body was fearfully mangled. Just before killing Layborn, the car was in a collision with another car, and in the crash several persons were bruised. The car that killed Layborn also killed a cow earlier in the evening.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. R. W. Sullivan, Prop. Sullivan House, El Reno, O. T., writes, June 6, 1902: "I take pleasure in recommending Ballard's Snow Liniment to all who are afflicted with rheumatism. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1.00. Sold by W. M. Johnson.

Found Colt Missing.

New York, Sept. 17.—When the stablemen in charge of the Chelsea string at Belmont park went to the stall in which Simple Honours, an important four-year-old colt was kept, they found him missing. It is now feared that the colt has been stolen. The police of Long Island City was notified. Simple Honours is a bay colt by Raconteur-Affluence. He won two races last year.

THE SIN OF THE STREETS

Young Criminals in the Making and the Court Where They Are Tried.

A day spent in New York's Children's Court will never be forgotten. Here all the youthful offenders are tried. Into this court crowds more of human interest than in any other court in the world, says The September Delineator. Before its bar is constantly passing a great procession of human incongruities, scenes vibrant with pathos and humor. For both pathos and humor consist in the perception of incongruities. It is the sins of the parents and the sins of the living conditions that the overcrowded city forces on its children that here stand out most strikingly. The real culprit is more often the delinquent parent than the delinquent child. The sight of a child trotting to a saloon two or three times daily, pail in hand to procure the family supply of beer—a familiar one in a great city—impeaches the parent for a criminal indifference. Small wonder that the child's moral perceptions are obliterated, and his instincts perverted in such surroundings! It is in the streets, the vice-sown streets, that the child learns to gamble, to swear, to steal. He cannot help it. He must employ the ways of his companions if he is to survive among them. And the ways of his companions lead oftenest to the Children's Court.

OUR NATIONAL DANGER.

Time to Cry a Halt Before a Panic Comes.

The business spirit is crushing out the sweeter element of home life. We are in danger of a great commercial decline, because men, as a whole, think only of getting wealth.

There are thousands, both men and women, who do not take time to eat properly. They rush through life, and as a result we have an age of indigestion, nervousness, irritability, sleepless nights, and morose disposition.

With the discovery of Mi-o-na tablets, there is no longer any excuse for one to have ill health from stomach weakness.

Mi-o-na strengthens the walls of the stomach, stimulates secretion of the digestive juices, regulates the liver and restores muscular contraction to the intestines and bowels, so no laxative is needed.

Sick headaches, palpitation, bad taste in the mouth, yellow skin, irritability, coated tongue and melancholy are a few of the many distressing results of indigestion. Mi-o-na never fails to dispel all these troubles.

J. W. McCollum & Co. sell Mi-o-na in 50-cent boxes, and guarantee to refund the money if the remedy does not give complete satisfaction.

Groom of One Week Suicides.

Meridian, Miss., Sept. 16.—Despondency, the result, it is alleged, of an estrangement between himself an his bride of a week, is believed to have prompted T. J. Hyde, aged 20 years, to swallow an overdose of a drug in a room of a local hotel, which resulted in his death some time later. A note written by Hyde, bidding his wife goodby and giving directions as to the disposal of his body, was found in the room. Mrs. Hyde is a daughter of N. B. Shelby, a prominent Ellisville banker, while the dead man was a member of a prominent family of Laurel.

CHANGE OF VENUE GRANTED.

Lowmans Will Be Tried in Alachua for Murder of Dunlap Phinney.

Hon. Fred Cubberly of Cedar Key was in town Tuesday on business and while here received a telephone message stating that the defendants' application for change of venue in the case of the State vs. Lowman, charged with the murder of Dunlap Phinney, has been granted by Judge Wills and the case transferred to Alachua county. The application for a change of venue was refused at the special term of court in Levy county some weeks ago, but at the opening of the regular term last Monday the application was renewed and granted.

This case is well known of throughout Levy and Alachua counties, and it is probable that it will require several days to dispose of it.

There is not much business remaining to be transacted in Levy county at this term of court, and it is probable that an adjournment will be taken at the end of the week.

Willard's Royal Lilliputians.

In addition to a big dramatic and vaudeville company that comprise Henry F. Willard's Comedians, Manager Willard has engaged two royal Lilliputians who are considered the smallest little folks in America. Captain George Liable is only forty inches in heighth and Miss Annie Nelson is still smaller, only measuring thirty-eight inches. These two clever midgets do a special vaudeville act with the company, and at the special Saturday matinee to be given here they will hold a reception on the stage immediately after the performance and will be most pleased to meet all the ladies and children who wish to talk and shake hands with them. They speak four languages fluently, German, French, Italian and English, and are bright and entertaining, having appeared before all the crowned heads of Europe.

The opening play for tomorrow night will be that great sensational comedy drama, "The White Caps," a story written around the famous "Ku-Klux-Klan," and which is filled to the brim with good comedy and has a remarkable sweet love story running through it.

Seats for this engagement are now on sale at Miller's and those wishing to procure good seats had better reserve them early, for the indications are that the opera house will be packed on the opening night.

Chamberlain's Cough Remedy One of the Best on the Market.

For many years Chamberlain's Cough Remedy has constantly gained in favor and popularity until it is now one of the most staple medicines in use and has an enormous sale. It is intended especially for acute throat and lung diseases, such as coughs, colds and croup, and can always be depended upon. It is pleasant and safe to take and undoubtedly the best in the market for the purposes for which it is intended. Sold by all druggists.

ORPHANAGE DAY.

Appeal for Aid from the Public for a Worthy Cause.

The first Saturday in October is also Orphanage Day, and [illegible] do [illegible] to. The [illegible] receive [illegible] Saturday [illegible] very gratifying. And now we ask that everybody who is interested in the Orphanage at Arcadia will give us the earnings of one day, the first Saturday in October, for our Boys' work. Please do not forget or neglect it. We now have fifty-two children to feed, clothe, and educate. Mr. W. H. Hooker, our legislator, has made it his business for years to see everybody in Arcadia and secure a contribution on the first Saturday in October, spending the whole day in the work. Last year he brought us three hundred dollars for the day. We ask that some man or lady in every town in Florida do similar work for the Orphanage. Please try to interest everyone, regardless of denomination, to put in his or her business the largest day's work they ever did, and send the gifts to me at Arcadia. The home is for poor white orphans of the State, "irrespective of religious creeds of nationality." Give your day's earnings, your estimated income, and make it a large, glad day for the poor.

We ask that Sunday schools and churches help in fully advertising the day, and that Sunday school superintendents and pastors interest their churches and schools, and do everything reasonable to get a contribution from everyone.

We will thank the editors of all our papers in the State if they will advertise the day, the first Saturday in October. We sincerely hope for large help.

Marriage at Old Town.

Rev. Thos. P. Hay, pastor of the First Presbyterian church of this city, returned yesterday from Old Town, where at 4 o'clock the same morning he united in matrimony Mr. Thos. Carl Wilson and Miss Joe-Allie McCarty, the ceremony being performed at the residence of the bride's mother. Mr. Wilson's home is at Reddick, Fla., but he occupies a responsible position with the Bohemia Naval Stores Company of Pensacola, which place the happy couple will make their future home. Miss McCarty is descended from the oldest and most highly respected families of LaFayette county and was one of the most popular belles of that country. Their many friends wish them a prosperous and happy married life.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WOMEN IN HOSPITALS

Experiences of Mrs. Rockwood and Miss Tierney

MISS MARGARET TIERNEY MRS. CHAS. A. ROCKWOOD

A large proportion of the operations performed in our hospitals are upon women and girls for some organic trouble.

Why should this be the case?

Because they have neglected themselves, as every one of these patients in the hospital beds had plenty of warning in those dragging sensations, pains at left or right of abdomen, backaches, nervous exhaustion, inflammation, ulceration, displacements, and other organic weaknesses.

All of these symptoms are indications of an unhealthy condition of the female system and if not heeded the penalty has to be paid by a dangerous operation. When these symptoms manifest themselves, do not drag along until you are obliged to go to the hospital and submit to an operation—but remember that Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, has saved hundreds of women from surgical operations.

Lydia E. Pinkham's Vegetable Compound, has cured more cases of feminine ills than any other one remedy. Such letters as the following are constantly being received by Mrs. Pinkham to prove our claims.

Mrs. C. A. Rockwood, teacher of Parliamentary Law, of 16 Pine St., Fredonia, N. Y., writes:

"For years I suffered with female trouble. It was decided that an operation was necessary, and although I submitted to a serious operation my sufferings continued, until Lydia E. Pinkham's Vegetable Compound was recommended and it proved a most valuable remedy, so quickly did it restore my health. I cannot thank you sufficiently for the good it has done me."

Miss Margaret Tierney, of No. 230 W. 38th Street, New York, writes:

Dear Mrs. Pinkham:—

"When only eighteen years of age our physician decided that an operation was necessary to permit of my regularly carrying out my natural functions. My mother objected and kept putting off, by a relative to try Lydia E. Pinkham's Vegetable Compound till an operation was imperative. My health, the proper conditions were restored and I am well and strong, thanks to Lydia E. Pinkham's Vegetable Compound."

No other remedy has such unqualified endorsement as Lydia E. Pinkham's Vegetable Compound. No other remedy in the world has such a record of cures of female ills.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that may help your case. Her advice is free and always helpful.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

HANGING BY A THREAD.

The tendency of machine-made patriotism or enthusiasm to melt away like snow before the hot blast of the vanishing dollar, says The Atlanta Constitution, was never more vividly illustrated than in the rapid veering of American sentiment as regards our proprietory interest in the Philippine archipelago. The New York Herald has recently been feeling the Congressional pulse on this subject, and its investigations reveal the astounding fact that there are sufficient Republican representatives weary of our Far Eastern burden to out-vote the expansionist element, were they willing to make common cause with the Democrats.

And it seems just yesterday that the man who timidly ventured the suggestion that the Philippines were a senseless and costly incumbrance was branded with sufficient epithets to make him feel like exiling himself forever from the "land of the free and the home of the brave."

So far as The Herald's poll progressed only 27 out of 138 representatives of all parties approached favored the retention of the archipelago. More than half of the Republicans quoted favor an abandonment of the islands, and Speaker Cannon is reported to have expressed an anxiety to "get out tomorrow" if any "honorable way" suggested itself.

There can be no question that these members of the party of imperialism are speaking their true sentiments, free from the gag of political expediency and restraint. Otherwise, there is no explanation for the fact that Congressional measures, looking tentatively toward the loosening of our hold in the archipelago, receive so sparse a Republican support.

It is evident, therefore, that administration influences in conjunction with the habit of following established procedure, even if proved erroneous, is the slender thread by which the Philippine appendix hangs to the American Government.

How long these bonds will prove of efficacy, or what sudden transformation may be wrought by a change of the political complexion of the administration, supply material for interesting speculation.

Two, three, five years hence there may be a different rule in Manila.

For the frankly avowed sentiment of these Republican Representatives and Senators express more than their personal standpoints. They reflect National opinion which of recent years has become increasingly irresponsive to high-sounding appeals regarding "our duty to civilization," or the followings of "manifest destiny."

The luxury of overseas possessions has long ago hit the nation in one of its vital spots—its pocketbook. It has been all outgo, and no income, with the prospect all in favor of an indefinite continuation of this unprofitable business.

A country whose predominant characteristic is commonsense soon wearies of such a program, more especially as little progress seems to be making in the purely benevolent phases of the undertaking.

Sooner or later our colonial policy will experience a decided change. It may be abrupt or it may, with the laudable object of saving the National face, be inducted by gradual steps.

The point of importance is that it is inevitably scheduled.

Vice-President Fairbanks is being let down easy by his entertainers, in deference to the strong prohibition sentiment in Indiana. At San Francisco "white wine punch" was served and cocktails and "Teddy straights" were cut out.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

The Republicans are getting into a worse and worse mess through the further exposures by The New York World of the corruption fund furnished by Harriman, Depew and the Wall Street interests for the Roosevelt campaign in 1904. The large sums filched from the widow and orphans' funds of the life insurance policy holders, which Treasurer Bliss of the Republican National Committee collected and Chairman Cortelyou expended, cannot be explained away. In fact, all that Judge Parker claimed before the election, which President Roosevelt denied, is gradually proving to be true, and no attempt at restitution has been made, except that Mr. Perkins of the Morgan banking company paid back to the New York Life the $50,000 that he had ordered paid to the Republican campaign fund, but the Republican managers have never restored a dollar. Senator Depew now says no such contributions will be made again and that the Republican politicians "are not notable for a high regard for their promises," presumably made in return for the corruption funds. What the Republican managers promised has not yet been disclosed. Whether it was immunity for Harriman and other rebate law breakers, or whether the bankers were promised the use of all the surplus money in the treasury, can only be surmised by the fact that both those interests have received such favors from the administration, yet still, from what Senator Depew says, other promises made by the politicians have not been regarded. Those who voted against Judge Parker because they believed President Roosevelt rather than Parker, certainly owe him the amende honorable.

There are evidences that when the battleship squadron goes to the Pacific, it will be a permanent transfer for a large part of the fleet. This may be readily figured out on inference. Preparations have been made by the Navy Department for establishing a large naval station and dock yard at San Diego. Now there are already docking facilities at San Francisco and Seattle for all the fleet that has ever been on the Pacific Coast, and the battleship squadron, if the present plans are carried out, will be in the Pacific before a year has passed. A dry dock cannot be constructed in less than three years, so that if there is going to be a large addition to the docking facilities of the coast, it will look to the stationing there of a much larger naval force than has ever been kept in those waters before.

The prohibition fight waxes warm in Escambia county, and it is announced that Senator John Beard will return from his summer outing in North Carolina in time to make a few speeches for the "dry side" before the campaign closes.

SERMONETTES

BY J. MARVIN NICHOLS.

We greatly need men who can discover those who can be helped to their feet again.

A battle cry at the mouth of the cannon is far easier than to cover the lips when silence is demanded.

The habit of making the best of things—or looking on the bright side of things—is a fortune in itself.

Why does the law punish Smith who steals ten dollars and never lays hands on Jones who steals ten millions?

Don't forget! All about you are longing spirits that pine for regions beyond the valley where the clouds swing low.

Every trouble, doubt, discouragement and fear will be forgotten if you throw yourself hard enough into your work.

If life now isn't the one that interests you, leave off the old—go out into the wide, wide world in quest of the Holy Grail.

It occurs to me that a whole lot are behind prison bars on account of the accidental pranks of a common human weakness.

We grow dumb before the moral splendors that hide quietly in the lives of the aged. A dear, serene old age is the supreme flower of humanity.

Only the hidden boulders tease and fret the river of life. Of these we will not speak lest we reveal their hiding places. But the worried waters that moan and sigh tell the story of our secret.

When an individual loses the sense of pity their greatness is gone. And that's true of any nation. We save ourselves as we lead our criminal classes—"accidental criminals"—back to respectability. William January of Kansas City proved it.

Little William was standing at the window watching the approach of a storm. Great, black clouds overspread the sky, when suddenly a vivid flash of lightning parted them for an instant. "Mama," he shouted, "I saw dat funder wink."

"Keep still, my friend," says the surgeon to the patient in the hospital; "for restlessness may produce false cuts and aggravate the process." If the brave fellow is wise, he will say: "Doctor, go as deep as you choose; only be sure to fetch out the bullet."

Believe in yourself, believe in humanity, believe in the success of your undertakings. Fear nothing and no one. Love your work, work, hope, trust. Keep in touch with today. Teach yourself to be practical and up to date and sensible. You cannot fail.

In a public park in Manchester, England, is a statue to the memory of Joseph Brotherton, who represented that city in parliament for many years. On it is this inscription: "My wealth consisted not in the abundance of my riches, but in the fewness of my wants."

Strange every fellow thinks he has the only right hard job in the world. In one single chapter of a recent novel I noted that the hero's countenance fell, his voice broke, his heart sank, his hair rose, his eyes blazed, his words burned, his blood froze. Say, fellow, you've had no such luck as that!

While in Alamosa the other day, I walked close behind a young married couple who were rushing to catch a train. The gentleman was dressed fit to kill and she was doing her best to pull on a glove. "Why don't you dress in the house?" he groaned. "I would as soon see a woman pull on her stockings in the street as her gloves." "Most men would," she said under a wave of selfish smiles. And right then you could hear a gum drop.

Paul Latzke, speaking of George Westinghouse in Everybody's "Romances of Success," declares it to be one of the picturesque incidents in the Westinghouse story that the General Electric Company, his greatest and bitterest business rival, the concern with which he had been engaged in perpetual warfare for fifteen years, and which was behind the great fight in Wall Street that was started to wipe the name of George Westinghouse off the commercial map, is now located at Schnectady and dominates the life and activity of that place. The face of Mr. Westinghouse's most persistent opponent, Thomas A. Edison, on whose patent the General Electric Company were mainly founded, is seen almost everywhere throughout the town in public offices and private houses. In the public library the place of honor is occupied by a large Edison bust. In the main public building there is an oil painting of him. Certainly a strange turn, that this city should have showered its greatest honors on the rival of her greatest son. For the want of inspiration and confidence on the part of his own, George Westinghouse left the city of his birth and in the city of Pittsburg began a career that has doubled the manufacturing wealth of the mighty Middle West. On an investment of over one hundred million dollars, and with thirty thousand men in his employ, he needs no Schnectady to enshrine him as her greatest son. Even with his air-brakes he has saved more lives than were lost in all the wars of Napoleon. But it is another demonstration that "a prophet is not without honor save in his own country"—and among his own people.

KILLED BY HIS CHUM.

Fatal Accident in Struggle of Boys for Possession of a Rifle.

New York, Sept. 17. Peter Burger, 11 years old, of Middle Village, in the borough of Queens, was shot by his chum, Herman Weide, 12 years of age, in a struggle for a rifle with which the boys and two companions had been playing.

Young Burger was bending over his friend's body to get the weapon away from him, when it was discharged and a bullet entered the Burger boy's abdomen.

Young Burger died. Weide was overcome with grief. He was arrested on a charge of homicide.

Cures Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

NEGRO RAN AMUCK.

Gripped by Blood Mania He Uses His Pistol in Crowded Street.

Chester, Pa., Sept. 17.—William Wells, a negro, Saturday night ran amuck in Market street this city, shot two men, nearly hit several others and was landed in the city hall by the police after a narrow escape from being injured, if not killed, at the hands of an infuriated crowd.

Wells had words with William Allen, another negro, in a restaurant, and both went to the street to fight it out. Wells began shooting and hit Allen three times. Deputy Sheriff Charles Brown, who was passing at the time, received a bullet in the neck. The street was crowded at the time and several men had narrow escapes from being shot.

Wells attempted to escape, but was caught by several men, who started into beating him when the police arrived. They started with him for the city hall, but it was with difficulty that they got through the crowd.

The police drew their clubs and literally had to fight their way to the police station, which they reached without any serious harm befalling the negro prisoner.

Allen and Brown are in a hospital in a serious condition.

Had Tetter for Thirty Years.

I have suffered with tetter for thirty years and have tried almost countless remedies with little, if any, relief. Three boxes of Chamberlain's Salve cured me. It was a torture. It breaks out a little sometimes, but nothing to what it used to do.—D. H. Beech, Midland, City, Ala. Chamberlain's Salve is for sale by all druggists.

BIG FURNACE SHUTS DOWN.

Adverse Legislation by Georgia Is Rumored as One of the Causes.

Chattanooga, Tenn., Sept. 17.—With the closing of work Saturday night, the Georgia Iron and Coal company which operates the Rising Fawn furnace and a number of other mines in north Georgia and Alabama, indefinitely shut down their plant at Rising Fawn, Ga. E. T. Sauler is the president of the Rising Fawn furnace, with headquarters at Birmingham, Ala.

The output of the furnace was 125 tons of iron per day, and gave employment to 160 men.

Two reports are afloat as to the immediate cause of the shut down, one being the adverse legislation by the last legislature of Georgia against mining operators, and the other attributes the shut down to disagreement among the company's officers.

TAKE HIM, DEAD OR ALIVE.

Posse After Papago Indian Charged With Killing a Mexican.

Tucson, Ariz., Sept. 17.—Sheriff Pacheco, of this county, and Harry Wheeler, captain of the Arizona Rangers, left Tucson Sunday at daybreak at the head of a posse of twelve rangers and deputy sheriffs to effect the capture of Johns, a Papago Indian, who is at Cubo Ranchera, an Indian village, 15 miles southeast of Tucson.

Fifteen days ago the Indian killed a Mexican. The sheriff sent a deputy to the Indian village to make the arrest. The deputy found the Indians armed and in a bad humor, and they defied him to take Johns. The deputy notified Sheriff Pacheco here of the situation, and the posse has gone to take the Indian dead or alive.

Might Start a Forest.

A lady told a party of friends that she had quarreled with her husband and had planted a tree in memory of their first falling out.

"What a splendid idea," whispered another lady in her husband's ear; "if we had adopted that plan we might have had by now a fine avenue of trees in our garden."

HERBINE

The Popular Liver Medicine Will Keep You Well

A GUARANTEED CURE for all diseases produced by TORPID LIVER and IMPURE BLOOD. Do not fill your system with Arsenic, Calomel and Quinine. They act as rank poisons which vitiate the blood, debilitate the system, and leave a trail of bad symptoms which require years to obliterate. HERBINE is purely vegetable and contains no mineral or narcotic poisons, is absolutely harmless and is the simple remedy of nature. It carries off all poison in the system and leaves no injurious effects.

CURED BY HERBINE AFTER OTHER REMEDIES FAILED

Mr. L. A. Hicks, Iredell, Texas, says: "I was sick in bed for eight months with liver trouble, the doctor seemed to do me no good. I was told to try Herbine, and it cured me in a short time. I cannot recommend this wonderful medicine too highly."

ART OF THE ETRUSCANS.

Mysterious People Who Left Traces of a Remarkable Civilization.

Why did the Etruscans devote their whole lives to the laborious turning of pottery until it accumulated in such quantities that they were compelled to bury it in order to keep from smothering themselves in their streets and houses?

Then, again, there is the question of the Etruscan inscriptions. These inscriptions are fairly numerous, but hitherto they have proved to be utterly unfathomable. The Etruscan is the only dead language that has defied investigation. Considered as a language, nothing could seem more improbable than the hieroglyphics of the Egyptians, but Egyptologists can read them with such ease that almost any given series of hieroglyphics can be read in three or four ways by an equal number of rival Egyptologists. Any language more utterly impossible at first glance than the Assyrian arrow-headed language could not well be imagined, but there are many learned men who can read, write and speak arrowhead with facility. And yet no man can make the least sense of the writings left by the Etruscans, although they are written in Roman characters.

All that we know of the Etruscans seems utterly inexplicable and preposterous. Naturally this makes them fascinating to every one who delights in mystery and the solution of puzzles.—Harmsworth Magazine.

Attack of Diarrhoea Cured by One Dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

I was so weak from an attack of diarrhoea that I could scarcely attend to my duties, when I took a dose of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It cured me entirely and I had been taking other medicine for nine days without relief. I heartily recommend this remedy as being the best to my knowledge for bowel complaints.—R. G. Stewart., of the firm of Stewart & Bro., Greenville, Ala. For sale by all druggists.

A SCRAP OF PAPER.

It Was the Means of Bringing a Murderer to Justice.

Scraps of paper have on several occasions been the means of throwing a light on some of the greatest and most mysterious of modern crimes, but it is not often that the merest scrap of tissue paper is responsible for the detection of a murderer.

This is only one instance among many where bits of paper have solved great mysteries.—London Answers.

Long Winded.

"It takes you a pretty long while to shave yourself, doesn't it?"

"Not so very long. I can shave myself quicker than my old barber could."

"I don't believe it."

"It's a fact. You see, he stammers terribly."—Philadelphia Press.

Studying how to help and benefit others will build up your own fortune.—Baltimore American.

The Paper Told the Tale.

A certain Greek adventurer some years ago undertook to palm off upon the public some false copies of the gospel manuscripts. Many learned men were deceived, but not Dr. Coxe, librarian of the Bodleian library at Oxford. How he detected the fraud was related in his own words in the Spectator.

I never really opened the book, but I held it in my hand and took one page of it between my finger and thumb while I listened to the rascal's account of how he found this most interesting antiquity. At the end of three or four minutes I handed it back to him with the short comment, "Nineteenth century paper, my dear sir," and he took it away in a hurry and did not come again. Yes, I was pleased, but I have handled several ancient manuscripts in my time, and I know the feel of old paper.

Mount McKinley.

In mountain climbing the world over the climber usually arrives fresh and unfatigued at the base of the peak he wishes to storm and, as a rule, begins his ascent at a high altitude. On Mount McKinley, as described by a writer in Outing, it is the opposite. There are twenty-five miles of rugged foothills and glaciers to be crossed with heavy packs before the base of the mountain is reached, and then the climber is confronted by 18,000 feet of rock and ice.

Worse Still.

"A visitor to see you, sir."

"I'll bet he wants some favor," grumbled Senator Greathead.

"It's a lady, sir."

"Ah! That means half a dozen favors."—Philadelphia Press.

Foreign Born.

English Girl—I hear you've been visiting the States. What did you think of the native American? Englishman—I didn't meet any. I spent all my time in New York.—Harper's Weekly.

The fault is always as great as he that commits it.—French Proverb.

Who Pays For Your Printing?

Poor printing is a detriment to any buisness, and is an unprofitable investment. Poor printing is usually paid for twice—once when you settle with the printer, and again in the injury it does your business.

GOOD PRINTING PAYS FOR ITSELF!

In the added business it brings, in the complete satisfaction you feel in sending out neat, tasty stationery, and its first cost is soon on the credit side of the ledger. Good printing is remembered long after the price is forgotten.
